January 10, 1966

Dear Mr. Johnson,

Is there anywhere in the archive, including in the new material recently transferred, a police "mug" shot of Oswald, the type of police photograph usually made on arrest? In Dallas, the police also used color Polaroid pictures. Are there any color photogrpahs of him on arrest or in the shirt he was wearing when he was arrested? Are the Hill exhibits in color?

At your convenience I should like to examine this shirt, preferably in the search room, where natural light is available. I should also like to examine the parking-lot jacket.

Sincerely yours,

Harold Weisberg
